

Wednesday, April 25, 2018 – Visit to Quest University Canada

Ten years ago, the founders of Quest University Canada sought out to design a new curriculum, one that provides the best possible education for undergraduates who want to change the world. Drawing on the most effective educational innovations from other institutions, and inventing several of our own, we have created a unique curriculum that engages and challenges all of our students.

Now, after ten years in operation, we have a full campus with a vibrant student body from all over the world and an ever-growing alumnus who are excelling in their fields. To see what some of our alumni are doing, click here: <https://questu.ca/about/alumni/>

On April 25, 2018, we invite you to join us on our beautiful campus in the Coast Mountains of Squamish, British Columbia. You will have the opportunity to meet members of the Quest faculty and staff and, most importantly, our current students, see our campus and enjoy our inspiring surroundings, attend classes, and discuss our vision for academic and co-curricular life. Your insights and feedback on our progress is most welcome.
